6822 Hartland St Houston, TX, 77055 – acadewole.com - <https://lojickse7en.github.io/myportfolio/>

Objective

Front-end web developer with a passion for self-growth. I am seeking an entry-level position where I will apply the skills I have acquired from projects I worked on and teams I have worked alongside.

Skills

Languages: HTML, WordPress, JavaScript, CSS, Git/Github, Linux, Bash, SQL

Software: MS Visio, VS Code, MS Office

Experience

Web Advisor Coach | Houston, TX

October 2018 – Present

- Provide assistance to a team of 20 in troubleshooting website/server issues during a customer interaction.
- Create training material and lead training sessions for new and tenured agents on quickly and efficiently resolving website issues that occur on the server using SSH/Terminal, Bash and regex.
- Handle a fast-paced work environment through prioritization of many tasks.

Self Employed, Web Developer/Designer | Houston, TX

July 2018 – Present

- Worked collaboratively with clients to create robust websites from concept, design to launch. Developing with focus on responsiveness, compatibility, and user experience.

Projects

[Portfolio Website](#)

Website built using CSS, HTML and JavaScript.

[Sentence Readability](#)

Program written in C to calculate the grade level at which the sentence is written.

Education & Certifications
